On average, positive reviews increase sales by 20%. Think about it, what would make you more likely to buy a product: It has no reviews. This might be a really great dish drying rack, but without any feedback it's going to be really hard for people to trust the seller.

## Example 2

Once again, we'll use the AMZScout PRO Extension for the sales analysis: As you likely guessed, the percentage of positive reviews greatly affects how many sales an item is able to generate.

The best way to get sales is to sell an item that everyone wants. To do this, you need to know how to view sales for an item on Amazon. Luckily, there's a simple solution.
